|                                                                                                                                                            | <u>Vol.</u> | <u>Page</u> |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|-------------|
| BEEF PRODUCTION ECONOMETRICS - SUDAN                                                                                                                       |             |             |
| Perverse supply in nomadic societies                                                                                                                       | I           | 46          |
| CAPITAL - UNITED KINGDOM                                                                                                                                   |             |             |
| An estimate of U.K. agriculture's gross capital formation in buildings and works between the wars                                                          | III         | 68          |
| CAPITAL, ECONOMETRICS - ENGLAND & WALES                                                                                                                    |             |             |
| The effect of income on formation of tenants' capital estimated from residual variation (Part 1)                                                           | III         | 111         |
| "          "          "          "          " (Part 2)                                                                                                     | IV          | 85          |
| CO-OPERATION - CYPRUS                                                                                                                                      |             |             |
| An appraisal of the economic, social, cultural and political factors that led to the efficient operation of the co-operative marketing societies in Cyprus | IV          | 164         |
| CO-OPERATION - UNITED STATES OF AMERICA                                                                                                                    |             |             |
| Historical development of agricultural co-operation in the United States and a hypothesis for policy in developing countries                               | IV          | 156         |
| DAFFODILS, ECONOMETRICS - UNITED KINGDOM                                                                                                                   | III         | 101         |
| An econometric analysis of daffodil prices                                                                                                                 |             |             |
| DECISION THEORY METHODOLOGY                                                                                                                                |             |             |
| Towards a theory for a practical optimisation model for a farm                                                                                             | II          | 99          |
| DEMAND, METHODOLOGY - GREAT BRITAIN                                                                                                                        |             |             |
| A view on consumer units distinguishing static and dynamic facets of the effect of age on consumption                                                      | II          | 32          |
| DEMAND, PRICES - UNITED KINGDOM                                                                                                                            |             |             |
| A note on perceptions of the extent of food price increases in a period of inflation                                                                       | III         | 133         |
| DEVELOPMENT - ARGENTINA                                                                                                                                    |             |             |
| Factors in changes of the Argentine pampas farm economy                                                                                                    | III         | 50          |
| DEVELOPMENT - ISRAEL                                                                                                                                       |             |             |
| Strategic considerations in Israeli agricultural development                                                                                               | II          | 132         |
| DEVELOPMENT, LAND REFORM - IRAN                                                                                                                            |             |             |
| The Development of Garmsar (Iran) Farm Corporation - A case study                                                                                          | IV          | 20          |
| DEVELOPMENT - LAND SETTLEMENT - NIGERIA                                                                                                                    |             |             |
| Re-examination of issues involved in the farm settlement scheme of the western state of Nigeria                                                            | III         | 79          |

|                                                                                                                               | <u>Vol.</u> | <u>Page</u> |
|-------------------------------------------------------------------------------------------------------------------------------|-------------|-------------|
| DEVELOPMENT - LAND TENURE - NIGERIA                                                                                           |             |             |
| The effect of land tenure on agricultural extension work in some villages of the east central state of Nigeria                | IV          | 175         |
| DEVELOPMENT PROGRAMMING - MALAWI                                                                                              |             |             |
| Employment creation in the traditional sector                                                                                 | V           | 1           |
| DEVELOPMENT PROGRAMMING - GHANA                                                                                               |             |             |
| Small farm improvement strategies - The implications of a computer simulation study of indigenous farming in south-east Ghana | IV          | 3           |
| DEVELOPMENT UTILITY                                                                                                           |             |             |
| Perverse supply in traditional societies - an explanation                                                                     | II          | 81          |
| LABOUR - UNITED KINGDOM                                                                                                       |             |             |
| The mobility, replacement and wage rates of farm workers                                                                      | III         | 140         |
| "        "        "        "        "        "        - A note                                                                | III         | 151         |
| LABOUR ECONOMETRICS - UNITED KINGDOM                                                                                          |             |             |
| Factors affecting the size of the labour force and the level of earnings in U.K. agriculture 1948 - 1965                      | I           | 20          |
| LABOUR METHODOLOGY - ENGLAND & WALES                                                                                          |             |             |
| The demand for skills in the farm labour force in England and Wales                                                           | IV          | 37          |
| LABOUR MIGRATION - ENGLAND                                                                                                    |             |             |
| Industry and migration of farm workers                                                                                        | II          | 141         |
| LABOUR MIGRATION - GREECE                                                                                                     |             |             |
| A study of Greek regional migration                                                                                           | I           | 3           |
| LAND CAPITAL - UNITED KINGDOM                                                                                                 |             |             |
| The impact of capital transfer tax on agriculture - A preliminary assessment                                                  | V           | 35          |
| LAND PRICES - ENGLAND                                                                                                         |             |             |
| The state of the agricultural land market, 1971-73. A survey of auctioneers' property transactions                            | IV          | 111         |
| LAND PRICES ECONOMETRICS - ENGLAND & WALES                                                                                    |             |             |
| The price of farms                                                                                                            | III         | 3           |
| LAND REFORM                                                                                                                   |             |             |
| Some fundamentals of land reform                                                                                              | 1           | 136         |
| LAND REFORM - IRAN                                                                                                            |             |             |
| Land reform and modernisation of the farming structure in Iran                                                                | II          | 120         |

|                                                                                                                                                       | <u>Vol.</u> | <u>Page</u> |
